Allowable Subject Matter

Claims 1, 4-8 allowed.

As to **Claim 1**, the prior art of record, taken alone or in combination, fails to disclose or render obvious projecting an interference pattern onto a CCD, shifting the wavelength by small increments, recording the shift, summing the patterns, calculating an average pattern, evaluating each pixel of the CCD for its sensitivity, and then compensating for the loss of sensitivity determined by the evaluation by increasing the sensitivity of the CCD camera, in combination with the rest of the limitations of the claim.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The pertinence of the prior art is the same as it was explained in the previous office action.
